

# KEN KENNEDY INSTITUTE DATA SCIENCE CONFERENCE

## Virtual Poster Session Tuesday, October 27, 2020

---

We are pleased to announce that we are now accepting poster proposals for consideration to the **4th annual virtual Ken Kennedy Institute Data Science Conference**.

The conference is a research, development, and innovation gathering, bringing together university and research labs, key industry verticals, and the IT industry that are looking at opportunities created by advances in AI, data analytics, machine learning, and deep learning. This year's virtual conference will have an online venue for networking, collaborating, and building partnerships focused around data science, machine learning, and data engineering problems and opportunities.

**Poster submissions are limited to graduate students and postdocs.** We welcome posters that are related to data-driven knowledge discovery, foundations of data science, and applications and use-cases. Visit [dsconference.rice.edu](https://dsconference.rice.edu) to submit your poster proposal.

### Submissions should include:

- Title of poster
- 1-2 paragraph abstract
- Authors and affiliations
- Poster in 4 slides (total) in PDF format
- 2-3 minute lightning presentation in MP4 format for upload. You can record your lightning talk using Zoom.
  - Following your submission in EasyChair, you will receive an email from the organizers with a link to upload your recorded lightning presentation to Rice Box.
  - Alternatively you can email [kenkenedy@rice.edu](mailto:kenkenedy@rice.edu) a shareable link to download your MP4 recording.

### Submission Deadline: October 12

**Complimentary Registration:** All accepted poster presenters receive a free registration pass. Poster presenters must attend the virtual poster session on Tuesday, October 27.

**Awards:** The audience will be encouraged to vote on the best poster presentation, best use of visualization, best use of public data, and biggest potential impact. Award winners will receive a \$50 gift card.
